Dear Sir / Madam,

Subject: Disclosure under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 – Capacity Addition

Re: BMW Industries, wholly owned subsidiary, BMW Iron and Steel limited, Inaugurates Tube Mills and Rooftop Solar Power Project, Invests ₹50 Crore

- BMW Industries inaugurated two tube mills and 1.28 MW rooftop solar power plant at its Jamshedpur facility.
- An investment of ₹50 crore was made, funded through bank finance and internal accruals.
- The expansion increases tube manufacturing capacity by 60,000 MT, totalling approx. 6,00,000 MT per annum.
- The newly installed solar power plant will help meet part of the facility's energy needs and reduce its carbon footprint.
- The company has also installed a solar power plant to partially meet the facility's internal energy needs, helping reduce reliance on conventional power and advancing the company's environmental, social, and governance (ESG) goals

Jamshedpur, 26th May 2025 - BMW Industries Limited, one of the leading manufacturers in the steel services sector, inaugurated two new tube mills and a 1.28 MW rooftop solar power plant at its Jamshedpur facility. The company has invested 50 crore in this project to increase production capacity and meet rising market demand. The rooftop solar system has been installed to partially meet the facility's internal energy needs, helping reduce reliance on conventional power and advancing the company's environmental, social, and governance (ESG) goals. This shift toward cleaner energy sources underscores BMW Industries' commitment to operating in a more sustainable and environmentally responsible manner.

The inauguration ceremony was led by Chief Guest Sanjay Surajprakash Sahni, The Executive In Charge of Tubes Division of Tata Steel, alongside senior company officials and dignitaries.

With this addition, the company's tube manufacturing capacity will grow by approximately 60,000 MT per annum, taking the total installed capacity to about 6,00,000 MT per annum. The new facility has been developed to meet rising demand and improve manufacturing capabilities.

Harsh Bansal, Managing Director, BMW Industries said, "We are pleased to start operations of the new tube mills at our Jamshedpur plant. This addition aligns with our long-term growth strategy and supports our focus on increasing output to meet market needs. The solar rooftop installation is part of our efforts to reduce dependency on non-renewable sources and manage energy use more effectively. These steps are in line with our ESG vision and will help in building a more efficient and responsible manufacturing setup. We thank all teams involved in making this milestone possible and remain committed to steady progress."

The new solar facility will support a portion of the plant's energy needs and reduce its carbon footprint. The expanded tube mill capacity will enhance the company's ability to manufacture steel products such as MS and GI pipes, which are in growing demand across sectors. The project represents BMW Industries' approach towards scaling responsibly, combining growth with long-term sustainability.

With this development, BMW Industries Limited has taken a significant step in strengthening its presence in the steel services sector and reaffirmed its commitment to responsible and efficient manufacturing practices.

The details as required under Regulation 30 of the SEBI LODR Regulations read with SEBI Circular No. SEBI/HO/CFD/CFD-PoD1/P/CIR/2023/123 dated 13 July, 2023 are enclosed herewith:

SI.	Particulars	Inauguration of Tube Mills with Solar 1.28
no.		MW Roof Top Power
1.	Existing capacity	96,000 MT per annum
2.	Existing capacity utilization	70% approx.
3.	Proposed capacity addition	60,000 MT per annum
4.	Period within which the proposed capacity is to be added	The Capacity was inaugurated today
5	Amount of investment made	Rs. 50 Crores
6	Mode of financing	Bank Finance and Internal accruals
7	Rationale	To cater the market demand.

About BMW Industries Limited

BMW Industries Limited is one of the leading manufacturers in the steel services sector engaged in the manufacturing of HRPO Coils, CR Coils, GP Coils, GC Sheets, MS and GI pipes, TMT rebars and processing the same for marquee steel players in India. Incorporated in 1981, the Company has its registered office in Kolkata, West Bengal, with manufacturing units in West Bengal and Jharkhand. The company has a joint venture with SAIL (Steel Authority of India Limited), with the plant located in Bokaro. BMWIL has successfully developed capabilities to become a trusted partner of choice for its customers and is strategically positioned in the value chain to add value to its customers through manufacturing and supply chain services.

We request you to take the above on record.

Thank you.

Yours faithfully,
For **BMW INDUSTRIES LIMITED**
